

WP&P 11-109 Groundwater Management Areas

1) Petition for Groundwater Management Area: Upon receipt of a Petition for a Groundwater Management Area the Office of the Engineer will:

- a) Evaluate technical merit of documentation provided, particularly in regards to the criteria of the Unitary Administration and Management Ordinance (§ 1-1-109 (8)); this may include outside consultation;
- b) Correspond with applicant regarding questions or deficiencies;
- c) Author a technical memo to the Board regarding Petition, which may include an actionable recommendation based on the findings of the Engineer;
- d) ~~Determine appropriate monitoring technique or applicability of remedy for inclusion in Technical Memo.~~
