4) Change in Place of Use for Unperfected Municipal Use Provisional Permits. Unperfected municipal use provisional permit holders on the FIR may apply for a change in the place of use to reflect current service area.
    a. Updates to place of use on municipal water rights must be obtained by completing Form 657F.
    b. The flow rate and volume authorized on the provisional permit cannot be exceeded with the change in place of use.
    c. No other changes to the provisional permit can be made using Form 657F.
    d. Service area or place of use maps must be submitted to the OE to establish the current place of use.
